

Application No: 10/298,769
Response Dated January 24, 2004
Reply to Office Action of October 24, 2003

REMARKS:

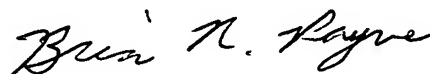

The Examiner stated that two separate inventions are disclosed in the application and required restriction between the Invention I of Claims 1-26 drawn to a rotorcraft and the Invention II of Claims 27-30 drawn to a method of providing flight control. Applicant elects to prosecute, without restriction, the Invention I of Claims 1-26 drawn to the rotorcraft.

Furthermore, the Examiner stated that if applicant elects to prosecute Invention I, that he must select to prosecute either Species A of the rotorcraft with blades that are pivotable about respective longitudinal axes drawn to Claims 1, 2, and 6-24 or Species B of the rotorcraft with flaps mounted on blades drawn to Claims 3-5, 25, and 26. Applicant elects to prosecute Species A with the blades pivotable about respective longitudinal axes drawn to Claims 1, 2, and 6-24.

Applicant respectfully requests that the application be examined on the merits as to the elected Invention I and Species A.

Respectfully,

LAW OFFICE OF BRIAN R. RAYVE
